Mastery in Minutes Tutorials

Pearson's Mastery in Minutes tutorials are designed to provide quick answers to common PowerSchool questions you might encounter daily. Each tutorial lasts between three to five minutes and leverages realistic PowerSchool scenarios that engage users and encourage prompt application of newfound knowledge.

With Mastery in Minutes, PowerSchool users will not only understand the function taught, but also learn the background necessary to put the task into perspective. This type of training is increasingly valuable for time-pressed staff in your district.

The self-paced series includes tutorials focusing on common tasks such as enrolling students, transferring students, running the List Students function, changing parent and student passwords and more. Additional tutorials will be added each month. Choose the category of tutorials below that best reflect your job role in PowerSchool.

Mastery in Minutes is part of our Product Education Training Subscription bundle. Please email proded@pearson.com for more information on purchasing this training.
