

## Questions and Answers for 470 Applications

1. We are interested in bidding both 12028 and 12029. The walk-through times for both projects are 10:00AM is this correct? Will there just be one walk through that will cover both projects?  
**Yes... that is correct.**

1. The RFP is naming three locations, is this all the locations you want Vbrick encoders in?  
**Yes, we want the Vbrick encoders in all three locations and we want to be able to control it from the district office.**
2. The RFP is asking for cabling for the same three locations. Is this part of the Vbrick bid or is this considered a separate contract?  
**The cabling and the Vbrick bid are 2 separate contracts.**
3. The RFP is asking for Oracle database knowledge for a migrations, SIF requirements and Novell Netware 6.x certifications, is this in reference to the vbrick video project also?  
**The knowledge and certifications are only applicable if they are needed for a turn-key installation on our network.**
4. The top of the bid says due Friday 2/25 and the middle says 2/22. Is it the 2/22 since its in the schedule?  
**I will accept bids until Friday, February 25, 2011 at noon.**

470# 722090000893303

1. I do have one question relative to two of the RFP?s (cabling, switches, UPS RFP (Form 470 #: 722090000893303) - and VBrick RFP (Form 470 #: 288370000893339)):  
**You know I swear I checked those RFPs a dozen times... I'm sorry for the confusion. I will make the due date February 25, 2011 to give vendors the maximum amount of time. Thank you for pointing this out to me.**

1. Can you please provide a physical address for the 2 sites requested in this solicitation? Also, is the requirement for 1Mb of service to each of the two locations?  
**This RFP is for one 10 MB circuit to connect Ruby Operations located at 103 Wexford Street in Ruby, SC and the district office where our main servers reside. Currently this location is 401**

**West Boulevard, Chesterfield, SC but it will be moving this summer to 116 Edwards Road in Chesterfield.**

2. The RFP asks: "The Chesterfield County School District is seeking provision of two MB digital circuits connecting the district office annex (Ruby Operations Center) and the District Office Administration Building with our wide area network. " Do you need a quantity of 2 or an operating speed of 2Mb ?

**Apparently the wrong RFP is posted on the website... I'm sorry and I will have that fixed. We are seeking one 10 MB digital circuit.**
